FEAR

ATTAK 45-This band was on a brilliant compilation album by the folks at NO FUTURE records. All of the songs are belted out and of course raise the question that arises in UK and that is the fact that there is nothing for the kids of the unemployment lines. The band is strictly for those people who like to hear the sound s of the streeets.

by ART YOUNG

FEAR;THE RECORD-Really good studio album from a non studio band.. when I played this disc for some people I know they kind of threw thier hands in the air and questioned the authenticity of the group they were hearing. First the album is just that, an album by Fear with songs like "I LOVE LIVING IN THE CITY", "LETS HAVE A WAR"; "NEW YORK'S ALRIGHT IF YOU LIKE SAXOPHONES", plus some stuff that was not in decline. Personally the record is good but it does not have the famous Ving bite that strikes you when you see them in the mov-ies or

Jodie Posters Army
Blatant Localism EP.

J.F.A.

J.F.A. comes to us from Arizona where they and the MEAT PUPPETS are terrorizing the desert hippies. Their blatant localism ep. although released last year it is fairly new to our area and is one not to be missed. It features cuts like COKES AND SNICKERS, BEACH BLANKET RONGOUT, DO THE HANNIGAN, & of course Jodie Posters Army. This is loose tight lifelike space music at it's best????! BUY IT OR TAPE IT REAL SOON!!!!!!!!!!!!!!

"SPIKE"

Husker-Du -land speed record recorded live album

This record is great. It never stops through 17 songs. Husker-Du is a 3-piece band that plays music just as fast as anything. The only complaint is the sound could maybe have been better.

by KW

FLIPPER: GENERIC - THE ALBUM PROVES THAT THE BAND IS MORE THAN JUST A NOVELTY. SONGS LIKE "NEVER", "THAT'S THE WAY OF THE WORLD" + "LIFE" ARE FANTASTIC. FINALLY THERE IS A SUPER EXTENDED "SEX BOMB" WITH SAX. THE ALBUM IS GREAT + SO ARE THE GUYS WILL SHATTER, TED, STEVE + AN ACCIDENT PRONE SINGER BY THE NAME OF BRUCE LOOSE. THIS ALBUM IS "WAH"! by ART YOUNG

Circle Jerks- Wild in the Streets album
This album with the exception of the 3 cover versions
is one of my faves at the moment. Songs like 'Letter Bomb,
Leave ME Alone, Stars & Stripes' and others are as good as
any song on the first album only more political.

by KW

Sadistic Exploits- Freedom b/y Apathy single
Not many of us like this but it's good it came out. Maybe
it would have sounded better back in November. *by KW*

SACCARINE TRUST
PAGANICONS 12" 45rpm. 3 songs
YEAH BABY!!!!!!

This is the first feature release from Saccarine Trust, not with-
standing their previous inclusion on both "Chunks" and "Cracks"
comp. ep's. Its good to hear a band that is making a personal
effort musically and lyrically to actually sound original these
days. I suppose what I most like about S.T. is their spasmodic
dynam and fresh clear vocals which many of the typical formula
thrash bands lack. The slash and burn guitar and heavy beat resemb-
les Gang Of Four in their finer moments, while vocalist Joaquin Brewer's
tormented ravings are reminiscent of the Fall's wreckless abandon.
There's not a bad song on the record but "I AM RIGHT" and "WE DONT NEED
FREEDOM" are my favorite tunes....."Freedom is what ruined your brain-
with creativity drugs and pain....."Wippee! My sentiments exactly. The
Raymond Pettibone illustration on the lyric sheet is excellent. All In
all a solid, well recorded, as well as visually executed piece of
work from a versatile and poetically sensitive band.*****

M.G.

THE MISFITS WALK AMONG US LP-Cmon out and bring your meat cleavers
people because this album comes straight out of some kind of a
graveyard. The album has several really great tunes like "Night
Of The Living Dead", "astro Zombies", "Violent World", plus on the
second side there is this remarkable live tune about going out
and having some fun cutting off somebodys neck. To comment on these
tunes would be like next to impossible since they are so into the
gothic horror equals society. The Misfits have been around and have
paid thier dues by being one of the first hardcore bands to have
come from NY. I really can't explain it but you really should buy
the album, listen to a friends copy and record it, or buy the old
stuff that paved the way for this band of ghouls!

by ART YOUNG

Rudimentary Peni- 7" EP

This band is supposedly out on Crass but it doesn't say
so anywhere on it. They are politically motivated as is
Crass but sound more like an English Meat Puppets.

Buy it- a bargain at 12 songs! *by KW*
